

A5 Redgate to Higham Essential Maintenance Scheme

Bulletin # 01 - June 2020

Dear Customer,

Welcome to the first bulletin for the A5 Redgate to Higham essential maintenance scheme.

This scheme covers the section of the A5 Watling Street between the Mancetter Island and Higham Roundabout, a 3.7 mile stretch of carriageway. The essential maintenance programme will help improve safety on this important route by delivering a complete resurfacing of the carriageway, including laying new road markings and High Friction Surfacing (anti-skid) at junctions as well as vegetation and drainage clearance.

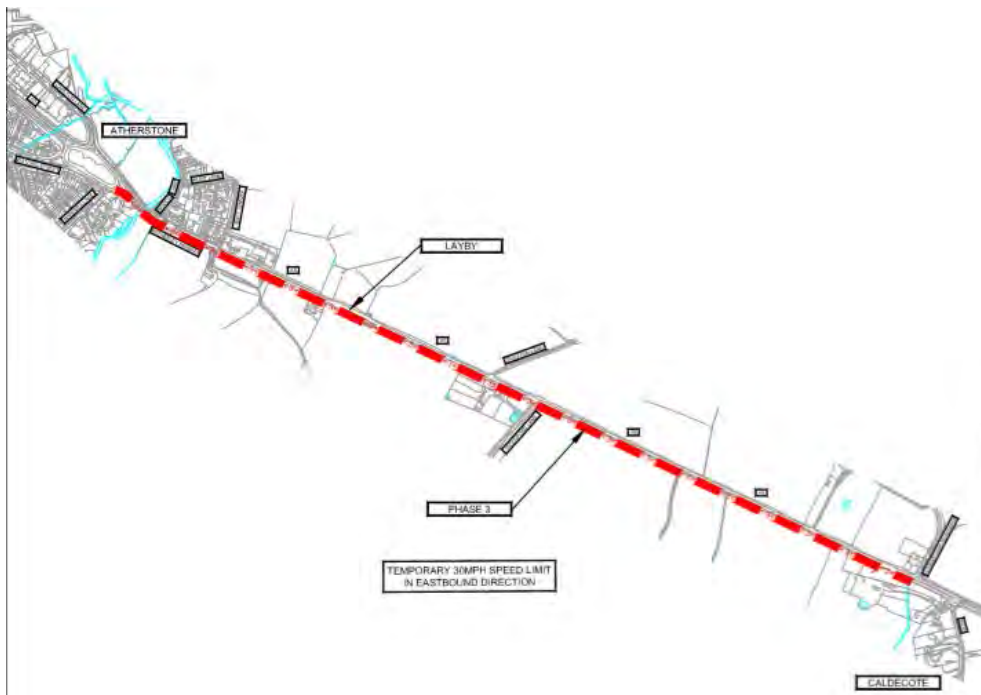

The work will commence on 6 July 2020 and will end during October 2020.

Keeping you informed

I will be providing two weekly look ahead bulletins, which will detail our planned works and any road closure and diversion route information, please do get in touch directly should you have any questions

First two week look ahead:

During the first two weeks we will be re-surfacing and working in the areas between Mancetter (Atherstone) Roundabout and the Longabout, (Redgate roundabout with the A444).

When will we carry out this work?

To reduce the impact on the travelling public, and for safety reasons, we will carry out this work overnight:

Monday – Thursday	8pm – 6am
Friday	8pm – 8am
Saturday	7pm – 10am
Sunday	7pm – 6am

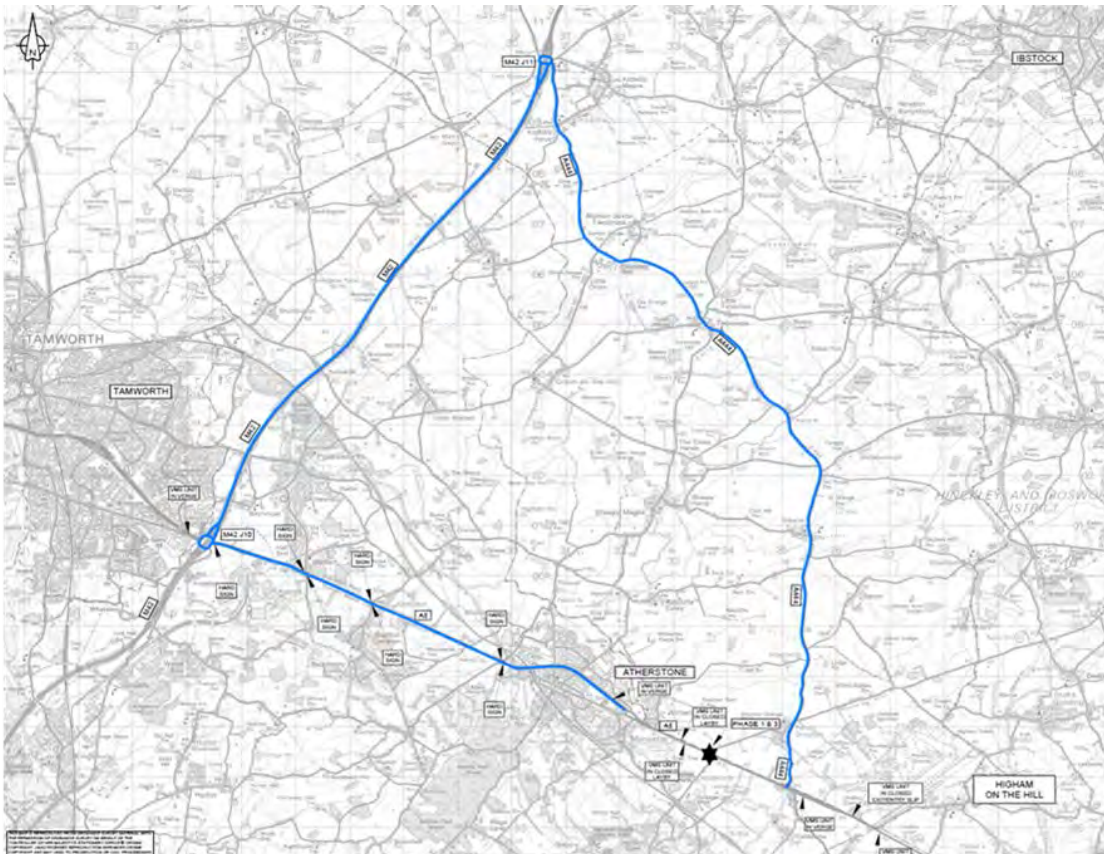

There will be some planned weekend road closures, during the day but you will be informed of them in advance

How will this affect A5 through traffic?

From 6 July for 2 weeks, the A5 will be closed (at night time) from Mancetter (Atherstone) roundabout to the Longabout (A444 Redgate roundabout)

The diversion route will be:

- A5 to M42 J10-11 and A444

A local diversion signed route will also be in place for non-motorway traffic:

- Via the B4114

NOTE: Signed diversion routes will be in place during any closures. Our planned closures may be subject to change due to weather conditions or unforeseen circumstances. Where possible, we will notify you if there are any changes to the schedule.

What about local parking and businesses?

Mancetter Island (Atherstone) with local access will be maintained by the Traffic Management Company.

What about noise and lighting?

We will keep noise levels as low as possible and will prioritise the noisiest works between 8pm to midnight.
