

# Hinckley Park: A5 traffic management update

I am writing to you to further to my correspondence last month regarding highways works on the A5 related to the construction of Hinckley Park – IM Properties' (IMP) new high-quality employment park located close to Junction 1 of the M69.

To recap, Winvic, Highways England's appointed contractor, is undertaking a programme of works to widen the carriageway and build a new roundabout that will connect the new development to the highways network via a new access on the A5.

The majority of this work is taking place offline to reduce the impact on the road network. However, I wanted to get in touch as a reminder that from 21<sup>st</sup> September, works within the public highway itself will require some overnight closures.

During these closures signposted diversions will be put in place. The diversion route for local traffic will be via the B4114 Smockington Lane and B4109 Hinckley Road. The diversion for HGVs and larger vehicles will be put in place via the M69 J1, M1 J21 to J20 and A4303. Full details of these routes are outlined in a map attached to this email.

These traffic management measures will be removed during daytime hours (6.00am-8.00pm) and the A5 will remain open as normal under a 40mph temporary speed limit. There will also be one full weekend closure which will now be taking place on 11<sup>th</sup>-13<sup>th</sup> December to finish the surfacing on the project.

In summary, the planned dates and phases for this part of the project are as follows:

- Overnight A5 traffic signals: ongoing until 08/01/2021
- Overnight A5 closures: 21/09/2020 – 15/01/2021
- Weekend A5 closure: 11/12/2020 – 13/12/2020
- Project construction completion: 15/03/2021

We would like to reassure you that IM Properties, Highways England, Winvic and all of the contractors involved in the project will work to ensure any disruption to road users, local communities and residents is minimised.

In addition, the health and wellbeing of our people and the communities near our sites is of paramount importance and we are implementing and regularly reviewing appropriate safety measures in line with Government and Public Health England guidance on Covid-19.

I hope that this information has been useful, however if you have any comments or questions please do not hesitate to contact the construction team directly via [hinckleypark-enquiries@winvic.co.uk](mailto:hinckleypark-enquiries@winvic.co.uk).

Yours sincerely

Steve Young
